

5. Urban Water Management Compliance

The single project proponent named in this application, the Castroville Community Services District, does not meet the definition of an urban water supplier, as defined in the IRWM Program Guidelines (“supplier, either publicly or privately owned, that provides water for municipal purposes, either directly or indirectly, to more than 3,000 customers or supplying more than 3,000 acre-feet of water annually”). The Castroville Community Services District supplies approximately 800 AFY of water to its 7,000 customers through 2,200 connections.
